Asthma Canada

Strategic Plan (2018-2020) - At a Glance

Our Vision

A future without asthma.

Our Mission

Helping Canadians with Asthma lead healthy lives through education, advocacy and research.

Our Values

Client Focused

We Listen

Caring & Compassionate

Collaborative

How we Fulfill our Mission

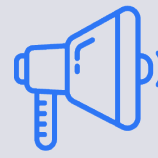

We **engage and empower** the asthma community

We **educate and inform** people living with asthma

We **support researchers** working to find better treatments

We **advocate for awareness and change** to improve access to healthcare

We strive for **excellence in service delivery** by best practices

2018 - 2020 Strategic Directions

Strengthen our Connections with the Asthma Community

Through our programs and support services, we reach, inform and engage people living with asthma. By building stronger connections with the asthma community, we can better identify and address their needs.

Expand the Focus on Asthma

We are ambitiously expanding our connections to the medical and scientific communities that work with researchers, patients, and families to help the asthma community take control of their symptoms.

Raise Funds to Support our Mission

In the next three years we are looking to diversify our donor base. Our work with corporations, foundations and individual donors ensures that more of the lives of Canadians affected by asthma are changed for the better.

Build Capacity and Optimize Operational Excellence

Over the next three years we need to invest in systems that will streamline operations and maximize best practices. We strive to operate at the highest level of governance and deliver the highest quality programs and services.
